

Burn Rate Project

Analyst: Me

Client/Sponsor: Me also! Small world.

Purpose:

Discover monthly spending expectations to understand the cost of this career pivot and create a plan to minimize expenses where possible

Scope / Major Project Activities:

Activity	Description
Clean Transaction Data	Format transaction data into workable format.
Identify Amount of Spending	Find monthly expense totals and estimate projected expenses.
Identify Spread of Spending	Group transactions into distinct and useful groups.
Formulate Spending Plan	Identify necessary costs and find which can be reduced.

This project does not include:

- Project will not calculate account balances over time.
- Project will not be comparing spending to others.
- Project will not be filtering out one-off expenses or budgeting an emergency fund.

Deliverables:

Deliverable	Description/ Details
Cleaned Transaction Data	CSV containing all relevant transactions in consistent format.
Burn Rate	# of months savings will last based on historic costs.
Expenses Breakdown	Breakdown of expenses by category.
Financial Plan	Financial plan.

Schedule Overview / Major Milestones:

**Project too small to include.*

*Estimated date for completion:

1-2 days from start. Video slated for upload on 3/23.
